MATH CHART · PLACE VALUE

Decimal place value chart

Name _____ Date _____

I can write decimals in the right places and say what each digit is worth.

Thousands	Hundreds	Tens	Ones		Tenths	Hundredths	Thousandths
1	2	3	4	.	5	6	7
				.			
				.			
				.			
				.			
				.			
				.			
				.			
				.			
				.			
				.			

Example: 1,234.567 is read one thousand, two hundred thirty-four and five hundred sixty-seven thousandths. Say "and" for the decimal point.

How did I do? ☆ ☆ ☆
