How to draw a cat

Name _____ Date _____

I can draw a cat, one step at a time.

1 Follow the steps

The red lines are new in each step.

1

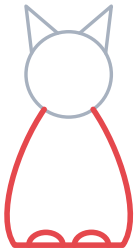

Draw a circle for the head.

2

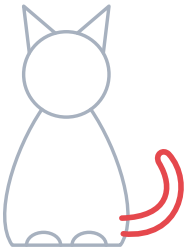

Add two pointy ears on top.

3

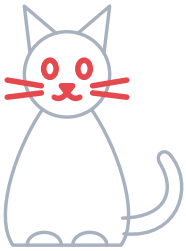

Draw the body under the head, round at the bottom, with two little paws.

4

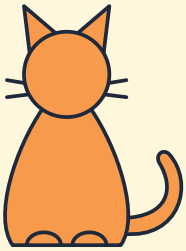

Draw a long curly tail.

5

Draw the face: eyes, a nose, a mouth and whiskers. Then color your cat.

6

All done! Now color your drawing.

Did you know?
A cat uses its whiskers to feel if it can fit through a small space.
