How to draw a fish

Name _____ Date _____

I can draw a fish, one step at a time.

1 Follow the steps

The dark lines are new in each step.

1

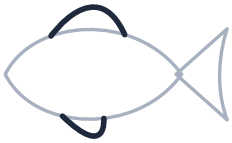

Draw a long oval body, pointy at one end.

2

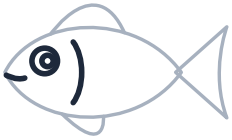

Add a tail at the pointy end.

3

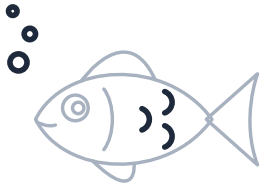

Draw a fin on top and a small fin underneath.

4

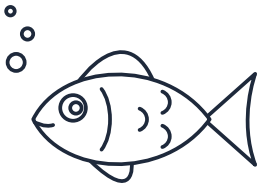

Draw a big eye, a curved line behind it, and a small mouth.

5

Add some scales and bubbles. Then color your fish.

6

All done! Now color your drawing.

Did you know?
Fish breathe under water with their gills, the curved lines behind their eyes.
