How to draw an owl

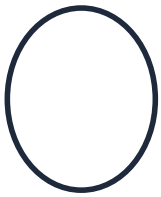

Name _____ Date _____

I can draw an owl, one step at a time.

1 Follow the steps

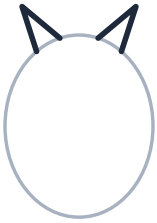

The dark lines are new in each step.

1

Draw a big egg shape for the body.

2

Add two pointy ear tufts on top.

3

Draw two big round eyes and a small beak.

4

Draw a round belly with little V marks, and a wing on each side.

5

Draw the feet holding a branch. Then color your owl.

6

All done! Now color your drawing.

Did you know?
An owl cannot move its eyes, so it turns its whole head to look around.
