How to draw a snail

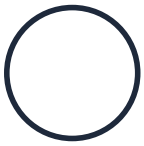

Name _____ Date _____

I can draw a snail, one step at a time.

1 Follow the steps

The dark lines are new in each step.

1

Draw a big circle for the shell.

2

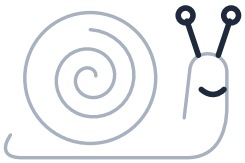

Draw a spiral inside the shell, going round and round to the middle.

3

Draw the long body under the shell, with the head going up at the front.

4

Add two feelers with eyes on the ends, and a smile.

5

Draw a leaf for your snail to sit on. Then color it.

6

All done! Now color your drawing.

Did you know?
A snail carries its house on its back and hides inside when it is scared.
