3RD GRADE READING · FICTION

The Library Detective

Name _____ Date _____

Fiction | 153 words | Story events and clues

I read it: ☆ to myself ☆ to a grown-up ☆ to a friend

1 Noor loved Fridays, because Friday was library day. This week she wanted the book about the giant squid. But when she reached the shelf, its space was empty.

2 "Someone must have checked it out," said Mr. Diaz, the librarian. He typed on his computer and **frowned.** "That's **odd.** It says the book is still here."

3 Noor decided to be a detective. She looked on the cart of returned books. Not there. She checked the reading corner and under the beanbags. Not there either. Then she remembered that every library book has a number on its **spine.** The squid book's number was 594.

4 Noor walked along the shelf, reading the numbers: 591, 592, 593 … 599. There it was, tucked between two books about whales! Someone had put it back in the wrong place. Mr. Diaz laughed. "Every book has its own address," he said. "Thank you for helping this one find its way home."
